MEMORANDUM FOR: The Honorable Caspar W. Weinberger
The Secretary of Defense

SUBJECT: The Philippines Bases Negotiations:
Central Intelligence Agency Support

1. In response to your request for "a flow of assessments" between now and next April to support the Philippine Bases Negotiations, I have examined this Agency's plans for supporting this negotiation and report the following:

- Agency analysts prepared the attached memorandum describing the overall situation President Marcos faces during the coming months. This memorandum condenses a large volume of finished intelligence prepared, in part, to support preparations for President Marcos' recent State visit.
- We also are preparing a summary of the 1978-79 negotiations, with an emphasis on stumbling points, major areas of conflict, and significant issues/aims sought by Philippine negotiators, but not achieved. This should be available in a couple of weeks.
- We will provide short, topical finished intelligence on these issues during the winter [redacted] 25X1
[redacted] In addition, we are performing 25X1 in-depth analyses of issues which will bear on the Bases Negotiations, such as how the Marcos Government works, how the opposition groups are faring, the economic/financial outlook, and the possibility of serious difficulties in rural areas.
